Subject:
public comment on chemical residue in food

Joseph

OPP 2003-0092 FRL 730

Aldicarb, atrazine, cacodylic acid; carbofuran -
proposed tolerance action by US EPA

I do not want to revoke specific meat, milk, poultry
and egg tolerances for residues of the insecticide
aldicarb. I WANT NO PESTICIDE RESIDUE ON ANY OF THE
FOREGOING PRODUCTS OR ANY OTHER FOOD PRODUCT.

i DO NOT WANT ANY CACODYLIC ACID, FENARIMOL RESIDUE ON
ANY FOOD PRODUCED OR EATEN BY FOLKS either.

the residue tolerance on any of these products should
be zero. this is my public comment on this proposal.

i also think consumers should be listed among those
affected by this action because not only ag producers,
food mfrs or pesticide mfrs are concerned about this.
The biggest group of concerned citizens are the
CONSUMERS.
